Making Do With Matches

Barney to the Rescue

Barney got everyone into the building without getting wet because it wasn't raining.

Road Signs

The vowels in the names of each community have a value of 4 and the consonants a value of 2. Therefore the Rosemont question mark should be replaced by 22.

Painting the Warehouses

If the Shelburne warehouse walls are twice as long and high, the area to paint is four times greater than in Grand Valley. (If Grand Valley walls are 10m x 10m, the wall area is 100 square metres [$x^2 = 100$]). Twice as long and high is 20m x 20m or 400 square metres [$x^2 = 400$]). To be "fair," Seldah should be paid \$800.
