wafer) — ozone

Silas Renarm Guards His Pennies

There are several possibilities. One is to

move 12 to 3, 7 to 4, 10 to 6, 8 to 1,
9 to 5, and 11 to 2. Other solutions
can be validated by reviewing them
against the rules.

One Path of Compound Words

newsletter — letterbox — boxcar —
carpool — poolside — sidelight —
lighthouse — housefly — flywheel

Adelaide's Near Miss

The incident happened in daylight.

Abe's Terrible Toothache

Abe should select Dr. Molar. The
dentists would have treated each
other and it appears Dr. Molar's
work on his partner produced
better results.

You Get a Second Chance!

Key number is 105. In other cases add
or subtract the final result you get from
the key number you chose. (E.g., for key
number 107, the final result is positive
2, which subtracted from 107 leaves
105. Or, for key number 103, the final
number is negative 2 which added to
103 = 105.)
